Experienced Framer

Description

Preservation and Framing Services is a multi-location, family-owned and operating custom framing and restoration of artwork shop that has been in business for over 40 years. We are currently looking to employ someone with previous work experience in custom art framing.

We perform high-quality custom framing jobs and require our employees to have experience and complete pieces that would meet those with high-quality expectations. You will have your own designated work station to complete your work.

We understand that many frame shops have closed due to the pandemic. If you are a previous frame shop owner, please let us know. We do have a special incentive for previous frame shop owners.

We look forward to hearing from you and working with you!

Responsibilities

- * Cut and join frames using a Morso Saw and Cassese Underpinner
- * Cutting glass with a wall mount glass cutter
- * Hand Cut Plexi Glass
- * Fitting of artwork and applying proper backing and hanging hardware
- * Help upkeep the shop by taking out the trash and putting away molding/glass boxes (must be able to pick up 50 pounds)
